

# LITHIUM BATTERY ENERGY STORAGE SPOT WELDING MACHINE PRODUCTION

Lithium battery spot welding machine, as the name suggests, is a kind of equipment specially used for spot welding between the battery cell and the pole, pole ear and other components in the manufacturing process of lithium battery. Through the instantaneous discharge of high energy, the metal on the contact surface quickly melts and solidifies, forming a solid metallurgical bond, so ???

Heltec SW01 and SW02 series spot welding machines are capacitor storage welding machines. They're high power spot welders with max peak pulse power of 42KW. You can select the peak current from 2000A to 7000A. It is easy for ???

Lithium battery spot welders are primarily used for connecting or repairing lithium battery components, including connecting battery cells, attaching wires, and welding the electrodes that connect the batteries. What we are introducing below is a spot welder specifically designed for the assembly and maintenance of lithium batteries.

Lithium battery module laser welding machine is a type of equipment used in the production of lithium-ion batteries. It uses laser technology to weld together the different parts of the battery module, including the electrode tabs, busbars, and other components.

Company Introduction: Huanteng Technology Co. Ltd. is a high-tech enterprise that integrates R& D, design, production, and sales. Currently, our main business involves the assembly and testing of green new energy lithium-ion battery equipment, including a series of precision pulse lithium-ion battery welding machines, intelligent comprehensive testers for lithium batteries, ???

Consumer Electronics: Lithium cell production machines are used for manufacturing batteries for smartphones, laptops, and other portable devices. Electric Vehicles: The production of high-capacity lithium-ion batteries for electric vehicles relies on advanced production equipment. Energy Storage Systems: Lithium-ion batteries are also crucial

These spot-welding machines can weld cylindrical batteries, can also be customized for a variety of cylindrical battery, square battery, button battery and etc. This machine is used for 18650,21700,26650 and other cylindrical battery module welding, such as: energy storage power supply, electric bicycle power supply, hand tool power supply

We are not only a supplier of 18650 Battery Spot Welding Machine, but also provide solutions for battery pack assembly production line. The lithium ion battery spot welder is suitable for automatic welding of battery packs such as energy storage batteries, power tool batteries, E-Bike batteries and low speed vehicle power batteries
