Longi and JA Solar have made significant strides in the solar panel industry, despite being newer compared to their Western counterparts. Their affordability is a key attraction, and while their warranties are competitive, the actual longevity and after-care services largely depend on individual experiences and regional support networks.

LONGi, a leading solar technology company, today launched its new module innovation "Guardian Anti-Dust" as part of the Hi-MO X6 Max back contact series at Intersolar 2024. But the effect of dust on solar panels in photovoltaic systems in general is even more significant. Dust shadowing not only changes the direction of light. It also
