Where is the first solar power plant in Bosnia & Herzegovina? In 2012, Bosnia and Herzegovina established the first solar power plant (SPP) in the site called Kalesija. This solar power plant generates a power of 120 kWh and the panels are distributed over 1200 m². Converted solar energy is sent to the Electric Power Industry of B&H. Its annual production counts 150,000 kWh of electricity.

Is Bosnia and Herzegovina a net exporter of electricity? Bosnia and Herzegovina (BiH), a country of around 3.5 million people, is currently a net exporter of electricity??? the only one in the Western Balkans. More than half of its electricity generation capacity is made up of hydropower, while the remainder is made up of five lignite power plants.

M E ENERGY PVT LTD BOSNIA AND HERZEGOVINA

Is Bosnia and Herzegovina a good country for solar energy? With around 60% of the land area, Bosnia and Herzegovina could have between 1.2 and 1.4 MWh/kWp of photovoltaic capacity compared to the world's solar potential. Compared to B&H and other Balkan countries, Serbia has a great potential for the implementation of solar energy.
