

MALTA HELIOTECH SOLAR

What makes Heliatek Solar Films unique? The materials of the organic solar stack developed by Heliatek are particularly innovative and are protected by Heliatek's comprehensive IP portfolio. The organic stack in our solar films consists of many individual layers but has a total thickness of only less than a thousandth of a millimeter.

What is heliasol solar? Revolutionary solar! HeliaSol is globally the only commercially available and IEC certified organic solar solution. Invented, developed, and manufactured by German engineering excellence, the solar films (not panels!), are light-weight, bendable, and truly sustainable.

Is Heliatek a green product? This is a truly green product, says Jan Birnstock, CTO of Heliatek. Heliatek is currently installing its large-scale production line for their unique OPV solar films. The line is in the ramp-up phase and will produce organic solar films with an annual capacity of up to 1 million m² from mid-2020.

Why should you choose SunPower solar panels in Malta? SunPower solar panels in Malta are the best in Malta and the world. They can help you reduce your electricity bills and carbon footprint while providing a sustainable lifestyle for years to come.

What is Heliatek & heliasol (R)? Heliatek stands for energy solutions designed for various traditional and never been possible before applications based on its unique features: ultra-light, flexible and truly green. HeliaSol(R) is a ready-to-use solution, ideal for retrofitting on existing building structures.

Who is Heliatek? Heliatek is the globally recognized market leader in organic photovoltaics. Since its foundation, Heliatek has continuously expanded its know-how and protected it with more than 450 patents*. Patents include the protection of organic solar cells with our proprietary
