Marshall Islands Our practice. Our Marshall Islands practice. Consumer markets; Press release - Business | June 29, 2022. The Asian Renewable Energy Hub is the world's largest renewables and green hydrogen energy hub with 26GW of renewable energy planned for the Pilbara region of Western Australia. Global | Press release - Business

The Republic of the Marshall Islands relies on imported petroleum products for 90% of its primary energy supply. But the Pacific small-island developing state has set out to increase the share of renewables in its energy mix and achieve 100% electrification by 2020. The envisaged energy transformation requires greater use of off-grid solar power.
