What is the global microgrid market size? The global microgrid market size was valued at USD 9.88 billion in 2023 and is projected to grow from USD 11.24 billion in 2024 to USD 37.35 billion by 2032, exhibiting a CAGR of 16.19% during the forecast period. Asia-Pacific dominated the microgrid market with a market share of 43.02 % in 2023.

Will Asia Pacific microgrid market surpass USD 54.5 billion by 2032? Asia Pacific microgrid market is expected to surpass USD 54.5 billion by 2032, due to increasing energy demand, need for reliable power supply, and significant investments in renewable energy.

Why is the Asia-Pacific microgrid market growing? The Asia-Pacific microgrid market is poised for significant expansion in the forthcoming years, driven by various factors. These include the escalating demand for dependable and resilient power supply, the growing emphasis on renewable energy sources, the increasing implementation of smart grid technologies, and supportive governmental policies.

What is the market outlook for microgrids in 2029? Microgrid Market Forecast to 2029 To know about the assumptions considered for the study, Request for Free Sample Report The rapid proliferation of electric vehicle (EV) charging infrastructure is driving a surge in the demand for microgrids.

What is the hardware segment of microgrid market? Hardware segment to account for the largest market share during the forecasting period. The hardware components of microgrids encompass power generators, energy storage systems, and controllers. The hardware segment of the microgrid market is witnessing growth propelled by several factors.
