

MODI SOLAR BURKINA FASO

Why is Burkina Faso launching a solar power plant in Komsilga? Loading In a significant step towards enhancing electricity supply and sustainable development, Burkina Faso signs an agreement for a 50 MWp solar power plant in Komsilga. The initiative, led by the Minister of Energy and Energie Plus, aims to fortify renewable energy contributions, fostering economic growth and improved access to electricity.

Will a 50 MWp solar power plant bolster Burkina Faso's electricity supply strategy? In a pivotal move to bolster Burkina Faso's electricity supply strategy, the Minister of Energy, Mines, and Quarries, Simon-Pierre BOUSSIM, and Serge CONSEIGA, General Director of Energie Plus, sealed an agreement for the construction of a 50-megawatt peak (50 MWp) solar power plant in the commune of Komsilga, Burkina Faso.

How many solar panels will Burkinabe produce a day? The plant, in the industrial zone of the Kossodo district of the Burkinabe capital, is expected to deliver 60-100 PV panels per day. Modules with power outputs ranging from 260 W to more than 330 W are being made at the XOF3.25 billion (\$5.78 million) factory.

Does Burkina Faso have electricity? Faso Energy secured almost XOF1 billion worth of tax exemptions during construction of the facility, which features a semi-automated PV production line supplied by Spanish equipment provider Mondragon. It is estimated less than 20% of the population of fossil fuel-dependent Burkina Faso has access to electricity.

Where are solar panels made in West Africa? The factory is said to be the first of its kind in West Africa. From pv magazine France. Solar module maker Faso Energy has begun manufacturing at its 30 MW solar module fab in Ouagadougou, Burkina Faso. The plant, in the industrial zone of the Kossodo district of the Burkinabe capital, is expected to deliver 60-100 PV panels per day.
