Solar panels can last anywhere between 25 to 30 years, sometimes more. This doesn't mean that the panels on your roof will stop producing electricity after a couple of decades. It just means their energy production will decrease by what solar panel manufacturers consider optimal to meet the average household's energy needs.

We offer the highest efficiency commercial solar panels available¹ Based on search of datasheet values from websites of top 10 manufacturers per IHS, as of January 2017., unmatched durability² #1 rank in "Fraunhofer PV Durability Initiative for Solar Modules: Part 3".
