Solar panels in Cape Town lose efficiency as they're heated. This may seem illogical, seeing as they're supposed to sit on the roof. It's simply due to physics. You'll get less power from your panels on a hot day than you would on a mild day. The power rating and efficiency of a panel are based on regular temperature conditions.

Solar Tracker When designing and installing a solar power system for your property, you have several unique ways to choose. But if you prefer to have a ground-mounted solar panel installation, it would be better to consider a solar tracking system so you can get the maximum amount of sunlight to power your house. For today's article, we will discuss what a solar ???
