Who is Nebula energy? Nebula Energy is a fully-integrated investment, development, and asset management company dedicated to revolutionizing the energy landscape. We deliver value-added energy solutions for utilities, private sector companies, cooperatives, and municipalities. We discover, develop, own, and operate efficient energy systems. Nebula Energy.

Does Nebula energy need a shipping company? Nebula Energy will need vessels in the next three years to serve upcoming projects. US-based investment company Nebula Energy is buying a controlling stake in LNG terminal developer AG&P LNG to fast-track its gas-to-power projects in South East Asia and is setting up a new shipping company to support its efforts.

Who is the new CEO of Nebula energy? Current AG&P LNG chief executive Karthik Sathyamoorthy will continue in his role, with Nebula founder Peter Gibson appointed as chairman and Sam Abdalla as vice chairman. Separately Nebula Energy has set up a ship-owning company, Nebula Energy Shipping, to own and operate its marine assets.

What is AG&P LNG doing with Nebula energy? AG&P LNG, with this new partnership, is set to enhance its LNG terminal and infrastructure footprint, operating as an independent subsidiary of Nebula Energy. The company has an extensive growth pipeline, including the development of six LNG terminals aimed at a combined capacity of 25 million tonnes per annum (MTPA).

Why should you invest in Nebula energy? Sathyamoorthy said that having a shareholder who can bring the shipping element helps give customers clear visibility on long-term supply. Nebula Energy LLC is an integrated investment, development and asset management firm based in Florida, US.
