

NEFIN SOLAR NAURU

Will AC energy partner with NEFIN? ???We are delighted to announce our partnership with NEFIN in what will be AC Energy???s first foray into rooftop solar projects as we look forward to roll out more projects throughout the region.??? Glenn Lim,CEO and co-founder of NEFIN,adds,???It is our pleasure to partner with ACEN,who shares the same vision with NEFIN.

How many MW does NEFIN own? The joint venture will own 21 MW of operating assets and has a robust near-term project pipeline. NEFIN,as an expert in rooftop solar PV system engineering and management,has collectively delivered over 300 MW of utility-scale,commercial,and industrial solar PV systems for itself and its clients.

What is NEFIN & ACEN & NEFIN? ACEN and NEFIN will establish a 50/50 joint venture holding company that will develop,construct,and operate rooftop solar projects across Asia. The joint venture will own 21 MW of operating assets and has a robust near-term project pipeline.

How does NEFIN work? NEFIN???s water pumping and filtration system uses electricity generated from solar panels to pump water from underground or clean above the ground sources while providing a filtration solution that enables the water to be usable for sanitation and even consumption. NEFIN???s solar panel cleaning robot automatically cleans solar panels on solar farms.

How can NEFIN help you save money? We help every client find the best approach to save money and the planet. NEFIN provides bespoke solar PV systems for land & facility owners, helping clients save money and the planet. Contact us today.
