

NEO ENERGY STORAGE AUSTRALIA

Who is Neoen Australia? Neoen Australia - Founded in 2008, Neoen is one of the world's leading independent producers of exclusively renewable energy. Neoen has been contributing to Australia's energy transition for over a decade. It has over 4 GW of renewable energy assets in operation or under construction and has invested more than \$4 billion in the Australian market.

Will Tesla & Neoen build a massive battery energy storage system? Tesla and Neoen will collaborate to build a massive 219MW, four-hour 877 MWh battery energy storage system in Western Australia near the coal town of Collie that will be powered by 224 2XL Megapacks.

Can Neoen achieve 10 GW in Australia by 2030? It provides a solid foundation for achieving our ambition of 10 GW in Australia by 2030. Xavier Barbaro, Neoen's Chairman and CEO, concluded: I would like to congratulate the Neoen Australia team on completing this major portfolio financing, which is the largest one in Neoen's 15 year history.

Does Neoen offer a 'virtual battery' in Australia? Neoen is proud to have developed the 'virtual battery' offer in Australia, providing a bespoke, smart, value-added product that meets the increasing needs of our customers.

How long will a Neoen battery last? It is Neoen's first battery project that could support a four-hour long duration, as it currently operates five other BESS projects in Australia. This one is the largest and will be able to support times when energy is most needed by the grid to encourage stability.

NEO ENERGY STORAGE AUSTRALIA

What is a Neoen deal? The deal is one of the largest for a renewable energy portfolio in Australia. It covers a significant portion of Neoen's high-quality, diversified portfolio of Australian solar, wind and battery storage assets.

Australia: Construction of Collie Battery (219 MW / 877 MWh), Neoen's first long duration battery meaning higher value services and improved market penetration of renewable energy. 2022 1 GW in operation or under construction, with the launch of construction on Western Downs Battery (200 MW / 400 MWh) and Blyth Battery (200 MW / 400 MWh) in Australia and Storen Power
