She lied about how many solar panels I needed. She lied about how many batteries I needed. She had her computer and was doing calculations. It took forever to get the solar panels hooked up. The blame was put on Entergy. Maybe they were to blame, I don't know. When she told me that the solar panels would cost \$106,800. I immediately told her

Spring up to three 400W portable solar panels and use with a DELTA Pro portable power station for input of 1600W. Additionally, EcoFlow portable power stations use an MPPT algorithm that ensures a constant energy supply. Unlike static solar panels, portable solar panels are easily moved and adjusted depending on where the sun is in the sky.
