

NICARAGUA MOLE ENERGY LTD

Is mole energy a good company? Emails were responded to swiftly and nothing was too much trouble. The scaffolding company and the solar fitters were also a pleasure to deal with. We have recommended Mole Energy to friends and wouldn't hesitate to do so again. Overall a smooth and pleasurable experience.

Why did mole energy install 12 solar panels? The trustees of Dean Prior Village decided to use Mole Energy to install 12 solar panels (5.1wp) because they had an excellent track record and one of the trustees has had already purchased solar panels, battery fitted to their home. It was an efficient and well organised company, from initial stages to the finished installation.

Why should you choose mole energy? Today, we???re extremely proud of this DNA that runs through Mole Energy, and we know that our customers and team feel the same way. Mole Energy delivered a first-class service from start to finish. They completed the installation in four hours and their team were polite and respectful.

How long does it take mole energy to install solar panels? Mole Energy delivered a first-class service from start to finish. They completed the installation in four hours and their team were polite and respectful. Our solar panels look really smart and we???re constantly checking the App to see how much energy they???re generating. Speak to our team and start saving on energy in under 6 weeks.

MOLE is a fully autonomous, robotic charging device that enables businesses to accelerate their transition to a fully electrified fleet. The ACD(U) connector is simple and easy to install and can be placed above and below ground, delivering safe and efficient charging for any vehicle with a MOLE adapter which can be fitted post registration or line integrated.

Today's technology is cost-effective, simple to install and helps both planet and pocket. Helping the planet: Over 25 years the average home solar system offsets the same amount of CO2 as recycling 16 tonnes of domestic waste or driving a family car for 112,745 miles.

Mole Energy managed the installation from end to end, including authorisation to connect to the grid and the scaffolding. Following the installation they provided a comprehensive set of documentation. I am delighted with the PV solar system ???

customer service absolutely sucks. Follow-up on requests is none existent. I've contacted mole energy twice through mole valley farmers (agent). stallation was not a good experience either installers have an attitude. sales are good though mole energy a company that has gotten too big and cocky for its own good on after-sales service
