

NIUE EVOLUTE POWER

The Formation of the Alofi Terrace. The formation of Niue doesn't end with the uplifting of the coral reef some million years ago. The Alofi Terrace, now the 20-30 m (65-98 ft) high terrace surrounding what was once the Mutulau Reef, is thought to have formed around 120,000 years ago, adding to Niue's current landmass.. As the sea level fell during the last ice a?|

The staff of Niue Power worked throughout those two days, discovered that the faulty cables tripped the northern feeder and caused the outage to the whole island from the new power station. To avoid island wide power outages the team decided to go back to using the old power station while work continues to stabilize the grid.
