

NORTHERN MARIANA ISLANDS SMARTER GRID INTERNATIONAL

Why do we need smarter and more resilient grids? Investments in smarter and more resilient grids will be necessary to accommodate the greater deployment of renewable energy and enhance energy security. Digital technologies designed for power systems are instrumental to unlock essential system services required to integrate high shares of variable renewable energy.

What is CNMI's net energy metering policy? CNMI also created a net energy metering policy that permits residential and commercial systems under 100 kW until 30% of CUC???s peak demand has been met.⁹ A variety of renew-able technologies are eligible.

Why do we need a smarter electricity grid? Strong policy attention is required to scale up investments in smarter and more resilient grids in emerging and developing economies where electricity consumption is set to grow at a rapid rate while also providing greater levels of electricity access.
