What is Finland's Energy Policy? Finland's approach includes nuclear energy, more renewables for electricity and heat, improved energy efficiency, and economy-wide electrification. After Russia's 2022 invasion of Ukraine, Finland moved to cut Russian energy imports, which previously comprised 81% of crude oil, 75% of natural gas, and 19% of electricity imports in 2021.

Will Oomi lower the price of electricity? No problem, we are here for you. The Finnish Parliament has approved the increase in the general value-added tax rate (VAT) from 24 percent to 25.5 percent. Oomi will lower the price of electricity for consumers to 24.90 cents per kilowatt hour.
