

# OUAGADOUGOU ON ENERGY STORAGE SUBSIDIES

---

expected to increase from 7 GW to 12 GW in 2020. The main energy storage project in Belgium is the construction and operation of an offshore "energy atoll" (essentially a manmade offshore ???)

European countries"" photovoltaic (PV) subsidy policies. Germany""s most recent PV subsidy policy 1. A tax-free tax credit : Electricity income is tax-free (German personal income tax in 22 years ???)
