

PALAU SORO SOLAR

How will solar energy be produced in Palau? Solar electricity will be produced by a hybrid 15.3 MWdc (13.2 MWac) solar photovoltaic (PV) plus 10.2 MWac/12.9 MWh battery energy storage system facility. Extensive safeguards to protect Palau's pristine environment SPEC did not leave any stone unturned to protect the pristine Palau ecosystem.

What is Palau solar & battery storage? The Palau solar and battery storage project not only bolsters the country's energy independence but also highlights the potential for renewable energy to power nations across the Pacific. As Palau paves the way, it inspires others to follow suit, driving the transition towards a greener and more sustainable world.

What is the Palau solar battery project? The Palau Solar Battery Project will be the largest such project in the Western Pacific. It will lessen Palau's imported fuel dependency, a major step towards its ambitious goal of 100%.

What is solar-plus-storage in Palau? Palau celebrated the inauguration of its ground-breaking solar-plus-storage project, marking a significant milestone in the region. Developed by Solar Pacific Energy Corporation (SPEC), a subsidiary of Altenergy, the project represents the largest power plant of its kind in the Western Pacific.

Where is Palau's first solar power plant located? We're proud to have supported the establishment of Palau's first utility-scale solar power plant at Ngatpangon Babeldaob. energy storage system, was undertaken by Solar Pacific Pristine Power, a privately owned company.

Does Palau rely on fossil fuels? As a small island developing state, the Republic of Palau sought to wean itself off its dependence on fossil fuel for power, which accounts for 99.7% of the country's power generation. To address this issue, Palau invited Solar Pacific Energy Corporation

In March 2024, PPUC acquired energy from Palau's first commercial Independent Power Producer (IPP), a solar company. This allowed them to replace two diesel generators with solar power. While a positive step towards renewable energy goals, the IPP system currently lacks battery storage, limiting its ability to maximise excess energy.

At Soler & Palau, we innovate in ventilation solutions that are energy efficient, easy to install, reliable and durable to ensure air quality in all the indoor spaces that we inhabit and pass through. Specialists in Ventilation Systems.

PALAU SORO SOLAR

The project was made possible by Renewable company Alternergy Holdings Corp. and its subsidiary Solar Pacific Energy Corporation. In a press release from the company, it said the Palau solar project boasts a capacity of 15.3 MWp solar PV and 12.9 MWh BESS, making it one of the most significant foreign direct investments in the country.
