Its plans to expand installed photovoltaic (PV) output to around 200 GW by 2030 are met with particular encouragement from the world's leading exhibition for the solar industry. Additionally, the government hopes to quickly break down all market barriers and accelerate grid connections as well as certification, planning, and approval procedures.

Solar & Storage Live is the UK's most forward-thinking, challenging and exciting renewable energy exhibition that celebrates the technologies at the forefront of the transition to a greener, smarter, more decentralised energy system.

The Solo III PV package includes your solar in-home display, a meter and access to energynote online services. Unlike the Solo II PV, this 100% meter-accurate solar monitoring system does need to be installed by a professional (either before or after your panels are in place) ??? though installation normally only takes up to an hour.
