Will your door to door solar sales pitch fail? If so, your door to door solar sales pitch will fail. Always remember??? You don???t sell solar panels, you sell energy-related solutions. This is important because your prospects don???t actually care about the panels.

How to create a high-converting solar sales pitch? First things first, you have to understand your audience to create a high-converting solar sales pitch. Then build an ideal customer profile (ICP) to match. In the solar industry, ICPs are normally: Homeowners: Since renters don???t own the homes they live in, they won???t want to talk to you about solar. Focus your energy on homeowners.

What is a solar sales pitch? A Solar Sales Pitch typically consists of four parts: 1. Introduction: The first step in any sales pitch is to introduce yourself and your product. This is your chance to make a good first impression, so be sure to be friendly and professional. Be sure to mention what makes your product unique and why it would be beneficial for the customer.

Why are solar sales pitches so boring? Hopefully, the answer is because your company offers some kind of unique value, such as: Take a moment to think about your company and the ways in which it outperforms the competition. Then use these things in your solar sales pitch. We???re just going to say it: most solar sales pitch scripts are boring. Why?

Why should a solar company have a profile on EnergySage? By having a profile on EnergySage, you can display your solar panel products and services to potential customers, as well as collect reviews from satisfied customers. This can help to establish your company as a trusted provider in the solar industry, and give potential customers the social proof they need to make a decision.
