

POLAND PREVAILER BATTERY

Who makes a battery in Poland? In fact, major industry players such as LG Energy Solutions and Umicore, have established a strong presence there. According to a McKinsey report, the Polish nation ranks second globally in battery production capacity, following China, with 73 GWh in 2022.

Which companies are building a battery storage facility in Poland? Polish utility PGE Group has launched a tender for the design and construction of a battery storage facility with a minimum capacity of at least 900 MWh. Meanwhile, Ukraine's DTEK has completed the acquisition of a 532 MWh battery storage project in southern Poland. Image: Sandia National Laboratories, Wikimedia Commons From ESS News

Who makes lithium-ion batteries in Poland? Lithium-ion batteries already account for more than 2.4 per cent of all Polish exports. In addition to LG Energy Solutions, other leading battery companies such as Northvolt, Umicore, SK Innovation, Capchem, Guotai Huarong, BMZ and Mercedes-Benz Manufacturing Poland are also investing in our country.

Why is Poland a good place to build a battery? According to Krzysztof Burda, president of the Polish Chamber of Electromobility Development (PIRE), Poland's strategic location makes it an ideal hub for battery, components, and subassembly factories. In fact, major industry players such as LG Energy Solutions and Umicore, have established a strong presence there.

Does Europe run on Polish lithium-ion batteries? We are pleased to present our report titled "Europe Runs on Polish Lithium-Ion Batteries: The Potential of the Battery Sector in Poland and the CEE Region". This report was developed with substantial support from market leaders and stakeholders in Poland and Slovakia.
