What will ESB's Poolbeg site be able to do? The Poolbeg site, the location of ESB's 75MW BESS, is pegged to host a combination of clean energy technologies, including offshore wind, hydrogen, and battery storage, over the coming decade. Both Ireland and Northern Ireland have set the target of generating 80% of the nation's electricity from renewable sources.

Is Poolbeg the EU's largest battery energy storage system? The 75MW/150MWh battery in Poolbeg is to be the EU's largest battery energy storage system (BESS) project by energy capacity, the companies said. A second 30MW/60MWh asset is also to be developed at South Wall, with both batteries to be developed at existing ESB plants.
