Please see our most popular selling sizes below. To discuss our (competitive) prices and to order your automatic strapping machines now, just call our team on 01376 584000 or fill in our enquiry form. One of our reps will be in touch. If your preferred specification is not listed, let us know what is required, and we will let you know if it is something we can supply.

The benefit of using polypropylene (PP) with your strapping machine is the low price of this material. It is often used with both automatic and manual strapping machines. The material is easy to use because of the flexible nature of the straps. Plus, it is resistant to temperature variations and rust, making it ideal in a variety of climates.
