

# RANKING OF PHOTOVOLTAIC PANEL CURING AGENT MANUFACTURERS

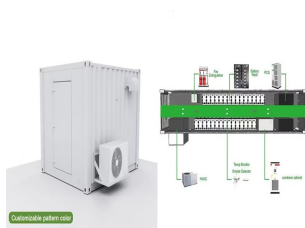

What are the top solar panel brands in 2024? February 13,2024 -

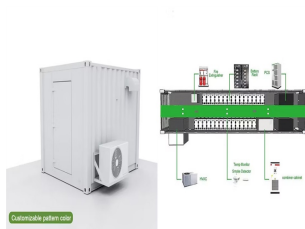

Today, SolarReviews released its annual solar panel brand ranking list, and Qcells has been crowned the top solar panel brand for the second year in a row! Details around the ranking list can be found [here](#), but here is a quick snapshot of the top 2024 solar panel brands:

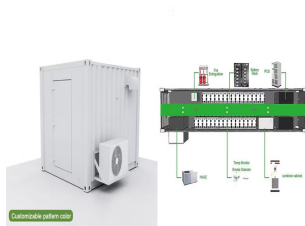

What are the top solar panel manufacturers? The top global solar panel manufacturers, based on their scale, include companies such as TW-Solar, JA Solar, AIKO, and others - these manufacturers ship a large number of solar products around the world each year.

Who are the top solar companies in the world? In August 2023, Tongwei Group made history as the first solar PV company on the Fortune Global 500 list, and is currently the only solar company on the global list (as of March 2024). The top seven global solar panel manufacturers are mostly (though not exclusively) Chinese.

Who are the top 20 solar module manufacturers? The module shipments of the top 20 manufacturers increased by more than 50% year-on-year, of which the shipments of the top four accounted for 59.95% of the total shipments of the top 20. The major players maintained their leading positions throughout the list. The top four were LONGi, Jinko, Trina and JA Solar, the same order as previous year.

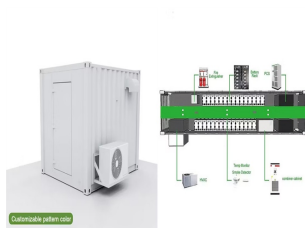

Who will dominate the global PV module market in 2023? A total of 18 Chinese companies were selected in the top 20 list, with a total output of more than 440GW in 2023, gradually taking over the global PV module market with their unique advantages. LONGi, the king of the PV industry, will supply 66.44GW of modules in 2023, up 42% year on year.

APPLICATION SCENARIOS

The Bloomberg Tier 1 ranking is a classification system used by Bloomberg New Energy Finance (BNEF) to rank photovoltaic (PV) module manufacturers based on bankability, or the willingness of banks to offer non-recourse loans to projects that use their products. It's important to note that this ranking is not a measure of quality, reliability, or performance of the PV modules.
