

RODAN ENERGY SOLUTIONS MOZAMBIQUE

Who is Rodan Energy? Rodan Energy is a leading North American provider of DER asset optimization, demand response and energy intelligence solutions. Our mantra is making sustainable attainable for commercial and industrial energy users, as well as power distribution and generation companies.

What services does Rodan offer? Power systems consulting, connection support and regulatory services. Rodan's suite of solutions combines model-based analytics of an Energy Management Intelligence System with expert energy analysts. Managing energy is not easy, and clients depend on Rodan daily for insights that allow them to make intelligent energy decisions.

How can Rodan help you manage energy? Managing energy is not easy, and clients depend on Rodan daily for insights that allow them to make intelligent energy decisions. Our Network Operation Center (NOC) captures over \$28 Billions in energy commodities and transactions annually.

How can Rodan predict energy and electricity demand charges? With many metering points focused on large utility and grid-level connections, we can predict energy and electricity demand charges before they reach your facility. From data analytics to prediction tools, Rodan's cloud-based software and Market Dashboard system allow your energy team and managers to react at the facility level in real-time.

What is Rodan Energy Intelligence? Rodan's Energy Intelligence suite delivers industry leading technology to effectively manage and optimize distributed energy resources, battery energy storage and microgrids. Rodan is active across North America and offers services to customers in all deregulated markets including IESO, PJM, NYISO, MISO, NEISO and AESO.

RODAN ENERGY SOLUTIONS MOZAMBIQUE

What does Rodan do? Rodan coordinates this participation so companies can earn revenue year-over-year while contributing to the reliability of their local grid. Combining local energy market intelligence, AI-powered forecasting, and proprietary modeling, to provide informed guidance to properly manage peak charges.
