

SCS ENERGY SINT MAARTEN

How much does electricity cost in Saint Martin? For Sint Maarten, the equivalent rates are roughly \$0.35/kWh. Like many islands, Saint Martin is highly dependent on imported fossil fuels, leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity.

What is Sint Maarten's national energy policy? renewable energy.10 The plan also emphasizes the need to raise awareness of energy conservation among individuals and businesses through communication campaigns. Sint Maarten developed a National Energy Policy (NEP) in 2014 that aims to mitigate the impact of energy use on the environment while reducing electricity tariffs.

What does gridmarket do for Sint Maarten? GridMarket was chosen as Sint Maarten's exclusive renewable energy partner to help the island reach 85% renewable penetration and 100% heavy fuel oil free by 2030. Sint Maarten will work with GridMarket to identify, design, procure, and install distributed energy assets and make corresponding infrastructure upgrades.

Equinor's Kårstø test facility, renowned for its state-of-the-art infrastructure and rigorous testing protocols, provides an ideal environment for assessing the SCS's endurance, performance, and functionality. Upwing

Port of Sint Maarten Group's (PSG) port investment focus is on operational excellence and transshipment. This will be done by further optimising the Port Community System and through the implementation of Cargo GLS wharf
