

SDIC NICOSIA YINGLI ENERGY STORAGE

What is SDIC power doing to guarantee power supply? First of all, SDIC Power immediately held a special meeting on guaranteeing power supply and is completely implementing all the requirements to guarantee power supply through coordinating all resources, implementing responsibility at all levels, increasing coal inventory, and optimizing emergency plan.

Who is SDIC power? The clean energy business of SDIC Power covers more than 20 provinces, municipalities and autonomous regions in the country and five countries in the Belt and Road Initiative and OECD nations, unveiling a beautiful blueprint of the company's devotion to the development of green and clean energy.

How has SDIC power changed its business structure? Since the beginning of this year, SDIC Power has been making constant efforts in adjusting its business structure, going all out to boost development, making best use of its existing high quality resources, increasing quality while enlarging installed capacity in an innovative way and further accelerating its overseas development of clean energy.

Does SDIC power supply coal? At present, power supply by SDIC Power remains stable. Second, SDIC Power takes the advantage of its long-term coal supply contracts with suppliers and strengthens coordination and communication with key coal mines, China State Railway Group Co., Ltd. and port authorities to allocate the supply of coal to each day from the previous weekly-basis.

What has SDIC power achieved in the first half of 2022? SDIC Power makes constant achievements in clean and low carbon energy development in the first half of 2022. In the hot summer of 2022, SDIC Power has made another exciting achievement in its clean and low carbon development drive: The first phase project of the Yalong River Lianghekou Kela Hybrid Hydro-Solar Power Station started construction.
