Minister of Mining and Energy Dubravka Djedovic and Dusan Zivkovic, General Director of the state-owned power utility EPS, have signed a contract with a consortium comprising Hyundai Engineering and UGT Renewables (UGTR) for a significant project to develop self-balancing solar power plants in Serbia.. The initiative aims to construct large ???

Also, in mid-December, the company Domi Eko Solar started production of solar panels in its plant in central Serbia. It is the first factory for the production of photovoltaic panels in the country. However, although a total of 157 solar power plants with a capacity of 23.3 megawatts have been built by the middle of 2023, the current capacities are far below the potential.

Okapi Technologies, a Malaysia-based fintech startup in the solar financing space, has announced raising fresh funds in a round anchored by early-stage investor The Radical Fund. Angel investors, including Lai Chang Wen and Shaun Chong, co-founders of regional logistics unicorn Ninja Van, joined the round.

The first phase of the construction of the biggest solar park in Serbia, Saraorci, has been completed. The total installed capacity in the first phase is 9.86 MW (11.8 MWp), whereas a power of 1.5 MW (1.86 MWp) is planned for the second phase. This is a photovoltaic power plant which is fully transferred to the power grid.
