

SINE ENERGY CHRISTMAS ISLAND

How can PRL group lead Christmas Island towards a sustainable future? Our ambition is to help lead Christmas Island towards a sustainable future based on renewable energy. PRL Group have committed towards rooftop solar for all its owned properties on the island, and the design and development of a large-scale solar energy system for Christmas Island.

Why should you choose sine energy? Sine Energy will continue to adopt the latest research and development technology results, select high quality solar cells and top brands materials, strictly control the production process and product quality, and focus on providing customers with high-quality solar modules in the most reasonable price.

Will a Christmas Island Battery Storage Project attract a 'renewable' project owner? Amid a growing number of island nations ditching diesel in favor of renewables, German battery storage manufacturer Tesvolt believes the savings achieved at the Christmas Island project are set to attract similar project owners to consider the renewable option in the region.

Can solar power a seed cleaning shed on Christmas Island? As part of a scientific research focusing on agriculture on exhausted mining areas, a seed cleaning shed on Christmas Island is being powered by solar+storage.

What is Christmas Island known for? Image: Tesvolt With a picturesque national park occupying most of its territory, home to many animal and plant species including a prodigious population of red crabs, Christmas Island is also known for intensive phosphate mining and severe ecological stress it brings.
