As a wholly-owned Ghanaian company, Suka solar Ghana is committed to providing Eco-friendly Power solutions across GH. From Brong-Ahafo to the Volta Region, our Solar Installations are designed with the future in mind, promoting Renewable Energy and Rural Electrification throughout nation. Join us in embracing a sustainable future with Suka

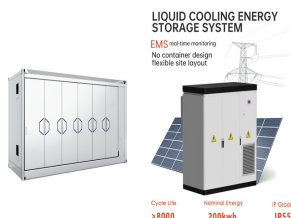

SoGhana Solar Energy. Why Choose us? As Ghana continues to desire a steady and uninterrupted power supply, there is the need to go beyond the construction of gas power plants and also look into alternative technologies especially renewable energy sources to power rural homes which constitute a higher percentage of the Ghanaian population (about 60%).

Solar energy in Ghana is a rapidly growing source of renewable energy. The country is endowed with abundant solar resources, making it an ideal location for solar energy production. Ghana has seen a sharp increase in solar energy use since the late 2000s, with the government encouraging the development of the sector with various initiatives.
