Hey r/mauritius, . So, like all of you, I am stuck in lockdown and spending way too much time on reddit. I saw recently an article (r/worldnews or r/futurology) about Singapore going with floating solar to power its electrical grid. For those who do not know, floating solar is just putting solar panels on a floating structure on a body of water, whether a lake or at sea.

Solar energy is a rapidly growing trend in Mauritius, offering a clean and cost-effective way to power your business and home. But the upfront cost of installing solar panels can be a hurdle. Thankfully, several banks and financial institutions in Mauritius offer attractive financing options to help you make the switch to solar.
