Solving today's complex renewable energy integration challenges with innovative battery storage technology. 4GWh DEPLOYED WITH A 10GWh PIPELINE We believe that energy storage is the missing piece of the energy transition puzzle. Trina Storage, bringing 26 years of solar experience comes with the vision to be the world-leading PV and

Generac solar battery is one of the main components of the PWRcell system, along with PV optimizers and inverters that together make a fully integrated solar and battery storage system. In its standard configuration consisting of 1 inverter and 3 lithium batteries in a battery cabinet, it provides 9 kWh of storage capacity.

While solar battery storage is optional, it's a wise investment if you want to be able to store your solar panel's excess energy once the sun goes down. It's not a particularly expensive addition to a solar energy system and its inclusion can save you money in the long run and even give you the ability to sell excess energy back to the grid.

Welcome to AI+ smart solar energy storage systems powerful enough to cover your entire home where control of your power, up to 200 amps, is just at your fingertips. Enjoy a complete solar home backup solution with a battery system that works smarter not harder. With Storz Power the energy storage performance and efficiency is unsurpassed.
