

# SOLAR INSTALLMENT PLAN CHAD

Will savannah energy install a solar power plant in Chad? Savannah Energy plans to install up to 300 MW of solar and a battery to power operations at its recently acquired Doba Oil project in Chad. It has also pledged up to 100 MW of solar and the same amount of wind to generate power for the capital, N'Djamena.

Will Chad's first solar power plant be built in Abch? In this unfavourable context, the French renewable energy firm InnoVentis is developing Chad's first solar power plant in Abch. The pilot phase of the plant (1 MW) was built between mid-2020 and November 2021, with soldiers providing security for both personnel and equipment.

Where will a solar farm be built in Chad? Savannah Energy plans to build a 300MW solar farm and battery energy storage system (BESS) facility, called Centrale Solaire de Kom, in Kom, Chad. The clean energy generated by the facility will be delivered to Doba Oil Project, as well as the surrounding towns of Moundou and Doba, and the country's capital city, N'Djamena.

How many MW of solar will Chad have by 2021? The International Renewable Energy Agency says Chad had 1 MW of grid-connected solar by the end of 2021. Savannah Energy has signed a deal with the government of Chad to develop up to 400 MW of solar-plus-battery projects in the country.

What is the largest energy project in Chad? He said it is likely the largest ever by a British company in Chad. The energy company said the Centrale Solaire de Kom project will likely be approved in 2023. It is expected to generate its first electricity in 2025. For the Centrale d'Énergie Renouvelable de N'Djamena facility, the respective dates given were 2023-24 and 2025-26.
