- Budget-Friendly Solution
- Renewable Energy Integration
- Modular Design for Flexible Expansion

How much does a 5 kW solar system cost in New Zealand? In 2023, a typical 5 kW solar power system in New Zealand costs around \$13,500. Like most other things, the larger a system, the lower its cost per watt. For instance, a small, 2 kW system may cost around \$7,500, which comes down to about \$3.75/W. On the other hand, a larger, 10 kW system can cost around \$25,000, or about \$2.5/W.

Commercial and Industrial ESS

Air Cooling / Liquid Cooling

- Budget-Friendly Solution
- Renewable Energy Integration
- Modular Design for Flexible Expansion

Are solar panels a good investment in New Zealand? A solar power system in New Zealand can easily earn a 10 to 15% return on investment. But this rate of return is likely to increase each year as the price of electricity continues to climb. Unsure if solar panels on your roof will be worthwhile or if the upfront cost will lead to a good payback?

Commercial and Industrial ESS
