Does Solarwatt have a system? Solarwatt has been active in system integration for over a decade, starting with an energy management system that included both its own devices and products from partners. Now, the company is expanding its lineup with its own new products: an inverter, a battery, two wallboxes, and two updated energy management systems.

What is Solarwatt's energy management system? SOLARWATT's energy management system allows you to use solar energy in the way that makes the most sense for you. Either automatic, or to your specifications. It shouldn't matter whether the sun is shining or not. Store excess solar power instead of feeding it into the grid, only to buy it back later at higher cost.
