

SOUTH SUDAN GETSOLARA COM

How solar energy can transform South Sudan's economy? A solar energy can also be transformative to South Sudan's economy. For example, solar energy is affordable, cleaner and lasts longer as compared to energy from diesel-powered generators because generators need diesel to burn and they also need to be replaced after few years.

Will South Sudan host a new grid-connected solar plant? The capital of South Sudan is set to host a new 12 MWp grid-connected solar plant. The nation had just 1 MW of grid solar at the end of 2021, according to the International Renewable Energy Agency (IRENA), but that figure could be set to leap thanks to a project under development in Juba by Ugandan company Aptech Africa.

How long does solar energy last in South Sudan? Proponents of solar energy argue that a solar system can produce reliable electricity for about 25 years. Having recognised solar energy potential, South Sudan is expected to put more emphasis on development of solar energy sector as part of its fight against energy poverty and economic diversification.

Why is solar energy important in South Sudan? As characterised by ample sunshine with strong solar power potential, South Sudan remains as one of key destinations on African continent for solar energy investment. In addition to this, it has been documented that evolution of solar PV is of great significance in South Sudan.

Will South Sudan build a 12 MWp solar plant in Juba? Kampala-based developer Aptech Africa says it plans to build a 12 MWp solar plant in Juba. The capital of South Sudan is set to host a new 12 MWp grid-connected solar plant.
