VINLEC COMMENCES PROJECT TO BUILD NEW POWER PLANT IN BEQUIA: Bequia to Receive a Modern Power Plant and Battery Storage System: St Vincent Electricity Services Limited (VINLEC) is excited to announce its plans for the construction of a new power plant and supporting infrastructure on the Northern Grenadines island of Bequia. This initiative ???

The most recent projects are a 580kW PV and battery energy storage system on Union Island, which was commissioned in 2019, and a 100kW solar microgrid on Mayreau island, which was commissioned in February 2020. St Vincent and the Grenadines is comprised of the main island of St Vincent and a chain of smaller islands, not all of which are inhabited.

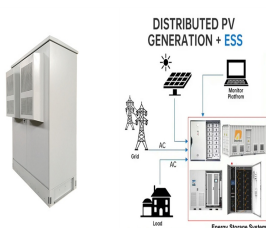

According to Eastern Caribbean Central Bank (ECCB) statistics as of December 2019, St. Vincent and the Grenadines had an estimated gross domestic product (GDP) of USD 825 million in 2019, with forecast growth of 3.4 percent in 2020. St. Vincent and the Grenadines and the United Arab Emirates concluded an Agreement on the Avoidance of Double

There is a hybrid system used on the island to produce electricity. VINLEC
uses diesel engines to generate electricity and there is also a solar
photovoltaic (PV) and Battery Storage system which was installed in 2019.
Electricity was introduced to St. Vincent and the Grenadines in 1931 by
the then Crown Colony Government.
