APPLICATION SCENARIOS

Worldwide manufacturer of permanent magnet generators & solar generators including small scale generators & large scale generators. Generators are available in capacities of 40 MVA to 2000 MVA. Small scale generators include 2-pole generators & 4-pole generators.

Time of establishment: Super Battery New Energy Co., LTD(SIPANI Battery) was founded in 2014 as an energy storage battery manufacturer integrated with R& D, custom service, production, and sale. We recommend you install a solar panel system with a huge solar battery that can handle a large capacity of electricity, enough to cover your

Here are the approximate runtimes for various electronics (according to the manufacturer). Appliance/device. Run time/recharges. Smartphone. 17 recharges. Laptop. 6 recharges. 5W lights. 22hrs. 32" TV. 3hrs. 20W fan. 6hrs. 60W mini fridge. 11hrs. For large solar generators such as those for RVs or home backup, LiFePO4 is always the best

For solar charging, you need a special solar adapter cable that some manufacturers include in the solar generator kit. An average solar charging time is around 5 hours, but large generators like the Renogy Lycan 5000 and the Bluetti EP500 have a dual-charging mode which lets you charge from the grid and solar at the same time.

The Titan solar generator does not match the number and variety of outlets on most other large solar generators. But it has all the outlets you need to plug in different kinds of appliances. It comes with seven 120V AC outlets (including one 30A outlet you can use to integrate Titan into your home grid), four 12V outlets and optional USB ports.
