Glas-glas zonnepanelen zijn van hoge kwaliteit en bieden veel voordelen. Ze hebben een langere levensduur en zijn bestand tegen extreme weersomstandigheden. Bovendien presteren ze ???

The government is also exploring the role of modern biomass in meeting the country's energy needs. Solar energy, in particular, stands out as a key player in Suriname's energy transition, offering the possibility to provide clean, affordable energy to both urban and rural populations.

But the energy mix ??? the balance of sources of energy in the supply ??? is becoming increasingly important as countries try to shift away from fossil fuels towards low-carbon sources of energy (nuclear or renewables including hydropower, solar and wind).

The Suriname Energy Chamber ( SEC) consists of a multidiscipline team of enthusiastic, dynamic and innovative members that sees a bright energy future for the country of Suriname. Our success is based upon a simple formula that sustainability of any energy based endeavor is based upon cooperation and collaboration from both the Private and Public sector.
