

SURINAME ENERSYS POWERSAFE BATTERY

What are powersafe(R) SBS batteries? Manufactured to the highest international standards, PowerSafe(R) SBS batteries offer outstanding performance in both float and cyclic applications. The high energy density of these batteries makes them ideal for system upgrades or reduced installation footprint, while still delivering dependable backup protection.

Why should you choose PowerSafe V batteries? PowerSafe V batteries are the number one choice for high integrity, high specification UPS systems due to their long service life and excellent high rate performance. PowerSafe V cells and monoblocs deliver superior performance while occupying less space than conventional standby power batteries.

Where are powersafe(R) batteries marketed? PowerSafe(R) products are marketed under the SuperSafe(R) brand in the following specific countries - India, Indonesia, Malaysia, Singapore, Thailand, Australia and New Zealand. Featuring advanced Thin Plate Pure Lead (TPPL) technology, PowerSafe SBS batteries deliver long life, high energy density and superior shelf life for telecommunications.

Are powersafe V-TT batteries a good choice? The reputation of PowerSafe V-TT batteries for long service life, together with excellent high rate performance, also makes them a great choice for high integrity, high specification UPS systems. PowerSafe V top terminal cells and monoblocs deliver superior performance whilst occupying less space than conventional standby power batteries.

What is a powersafe OPzV battery? The PowerSafe OPzV range of valve regulated lead-acid batteries uses a proven combination of gel and tubular technologies to offer a very high level of reliability. These single cells benefit from an optimised plate design that gives capacities in excess of DIN standard values.

SURINAME ENERSYS POWERSAFE BATTERY

What is a powersafe V top terminal battery? SummaryThe EnerSys(R) range of PowerSafe(R) V Top Terminal batteries has been designed specifically for use in applications that demand the highest levels of security and reliability. With compliance to the most rigorous international standards, PowerSafe V-TT batteries are recognised worldwide as a premium solution for Telecom and Utility applications.

The EnerSys(R) PowerSafe 12V95 battery from Specialist Power Systems has been designed specifically for use in applications that demand the highest levels of security and reliability. ???
