

SWEDEN POWERHUB SOLUTIONS

Does Sweden need a reliable and efficient energy storage solution? As renewable energy sources continue to play an increasingly significant role in Sweden's energy mix, and other countries for that matter, the need for reliable and efficient energy storage solutions becomes more apparent.

What is Sweden's smart energy ecosystem? Sweden's Smart Energy ecosystem brings together leading suppliers of smart grids, district heating and cooling, and innovative solutions for energy storage. These key players are on a mission to speed up the transition to clean electricity and carbon neutrality in Sweden and globally.

What is electrification hub? Electrification Hub is an innovation accelerator within electrification, smart energy solutions and electromobility. Together we drive the transition towards a fossil-free society in Sweden and globally. We promote innovations and sustainable solutions and foster research and development.

What is Sweden's largest energy storage investment? Sweden's largest energy storage investment, totaling 211 MW, goes live, combining 14 sites. 14 large-scale battery storage systems (BESS) have come online in Sweden to deploy 211 MW / 211 MWh into the region.

Why should you invest in Sweden's smart energy ecosystem? Five key strengths of Sweden's Smart Energy ecosystem: Renewable energy is expected to account for 80 per cent of global growth in electricity demand by 2030. Sweden is at the forefront of progress and offers a wealth of opportunities for foreign investors.

Is Sweden a smart grid? On top of this, Sweden is ranked number one on the World Economic Forum's energy transition index. The current smart grid system is a result of gradual coevolution between the Swedish power grid and the power generation.

SWEDEN POWERHUB SOLUTIONS

New network technology solutions such as wide-area monitoring and control and smart metering infrastructure is strengthening Sweden's stable and reliable grid and allowing a growing start-up scene to flourish. On top of this, Sweden is ???

Through this collaboration, PSW Power & Automation and Uddevalla Energi are not only addressing the immediate needs of the local power grid but are also contributing to the ???
