

# SWEDISH AIRPORT ENERGY STORAGE TENDER

What is the Arlanda Airport aquifer ??? thermal energy storage system?  
The Arlanda Airport Aquifer ??? Thermal Energy Storage System is an 8,000kW energy storage project located in Arlanda, Stockholm, Sweden. The thermal energy storage project uses others as its storage technology. The project was commissioned in 2009. Description The Arlanda Airport Aquifer ??? Thermal Energy Storage System was developed by LFV Group.

Does Swedavia offer a public tender for sustainable aviation fuel? Since 2016, Swedavia has carried out an annual public tender for sustainable aviation fuel (SAF), to reduce the lifecycle climate emissions with respect to all of the company's own business trips. Within the framework of the public tender initiative, other organizations and companies are also offered to participate.

Why does Swedavia need a public tender? The public tender makes it possible for Swedavia but also for other companies and organizations to reduce the climate footprint of their business trips, as sustainable aviation fuel has the potential to reduce lifecycle carbon dioxide emissions on average by up to 80% compared to the regular jet fuel it replaces.

When will sustainable aviation fuel be delivered to Stockholm Arlanda Airport? The sustainable aviation fuel is being delivered and used to refuel aircraft at Stockholm Arlanda Airport on Wednesday, November 17.

Will Swedavia deliver sustainable aviation fuel to Stockholm Arlanda Airport? On Wednesday, November 17, Swedavia???s annual delivery of sustainable aviation fuel is being delivered to Stockholm Arlanda Airport and used there to refuel aircraft. The refuelling is a result of Swedavia???s annual public tender for sustainable aviation fuel, which six different organisations are taking part in this year.
