The System pro E(R) energy range provides commercial and industrial end-users with easy to install, flexible and safe applications that can integrate all types electrical devices to build distribution panels up to 800 A. It is the first ABB solution that combines ABB technology and the former GE Quixtra platform to

The System pro E(R) energy range includes two types of cabinets and one internal configuration system. System pro E(R) energy L Tailored and proven wall-mounted and floor-standing sub distribution boards up to 800 A. Delivered in flat kits, System pro E(R) energy L provides a protection degree up to IP43 (IP30 without the door).

La amplia gama de System pro E(R) energy es ideal para entornos comerciales e industriales. La plataforma incluye armarios de chapa de acero de montaje en pared y pavimento, que ofrecen grados de protección contra el polvo y el agua de hasta IP43 e IP55. Un equipamiento interior común y sistemas de embarrados para la plataforma completa

La serie System pro E(R) energy è progettata nel pieno rispetto Quadri di distribuzione fino a 800A delle normative internazionali. È un sistema che grazie alla perfetta combinazione con tutte le apparecchiature ABB per impianti a bassa tensione è certificata in conformità alle ???

SYSTEM PRO E ENERGY AUSTRALIA

As diversas opções de entrada de cabos, no espaço de cabeamento em cima, embaixo ou aos lados, criam muito espaço para a passagem e disposição dos cabos. Um flange de membrana é acoplado ao topo a cada largura de painel, o que permite passagem rápida, simples e segura de uma quantidade maior de cabos.
