

# TALESUNWHAT BRAND OF PHOTOVOLTAIC PANELS

Talesun Solar, as one of the world's leading photovoltaic manufacturers, has a strong brand influence and research & development strength. The company focuses on technological innovation and quality management, and constantly introduces efficient and reliable photovoltaic products, which has won the trust of users around the world

was a particularly successful year for the solar energy sector in the European Union. In 2019, the EU added 16.7 GW of solar capacity to its portfolio, increasing the capacity of new installations by 104%. compared to 2018 data. The brand is listed in the TIER 1 ranking in the top ten . According to the BNEF definition, this means that

The Bloomberg New Energy Finance (BNEF) recently released its fresh survey result which indicates the PV Module and Inverter Bankability in 2020. Talesun Solar, once again, was listed in the top

TALESUN BRAND REVISION:CRYSTALLINE SOLAR PHOTOVOLTAIC MODULE TS -AT 123 A9 EFFECTIVE DATE: 02-2017 Page 1 of 7  
TALESUN guarantees the nominal power output of the Product will be no less than 97% of the labeled power output. b) From year 2 to year 24, the nominal power decline will be no more than 0.7% in each

Talesun is a Tier 1 Chinese solar panel manufacturer founded in 2010. The company has over 45 branches and offices and ships their panels to over 80 countries. The company's cumulative module shipments have reached 36 gigawatts which puts them in the list of Top 10 world's largest solar manufacturers.

The concept of an elite list of Tier 1 solar panel manufacturers was first used by Bloomberg New Energy in a report on the "bankability" of different solar panel brands. They chose brands that had been financed on a non-recourse basis by several banks, over several different projects greater than 1.5 megawatts in size.

As the temperature of a solar panel increases during the day, the electrical resistance also increases, resulting in a slight reduction in power output, referred to as the power temperature coefficient, measured in %/°C.
