---

Are Tesla Powerwalls too expensive? If you are thinking that Powerwalls are too expensive to fit into your budget, don't worry. Tesla Powerwalls are eligible for solar incentives that make them more affordable. The largest incentive that applies to the Tesla Powerwall is the federal solar tax credit (ITC).

How many Tesla Powerwalls are there? As of November 2021, there have been approximately 250,000 Tesla Powerwalls installed across the globe, spanning from the United States to Australia. So why is the cost of a Tesla Powerwall still somewhat of a mystery?

Does Tesla offer a discount on Powerwall installations? Tesla offers a discount on Powerwall installations when batteries are bundled with the direct purchase of Tesla solar panels or Tesla Solar Roof. Solar & Powerwall discount starts at \$4,000, but can increase with the number of batteries you install. There are two ways to purchase a Tesla Powerwall:

Does Tesla offer a rebate on Powerwalls? Tesla also offers a \$500 rebate on Powerwall system purchases until October 31, 2023. This is a per-unit rebate, so installing two Powerwalls will get you a \$1,000 rebate. The only warning: the rebate is available only for the Tesla Powerwall 2 and Tesla Powerwall+ units.

Should I buy a Tesla Powerwall battery? If you order Tesla solar panels on the company website, the Powerwall will be your only battery option. The Tesla Powerwall is a lithium-ion home storage battery that can be installed on its own or alongside solar panels to store energy for later use. It provides backup power during blackouts and can potentially save money on electricity bills.
