

TIKO ENERGY SOLUTIONS AG INDONESIA

What is Tiko Energy Solutions AG? tiko Energy Solutions AG was founded in September 2012. The tiko platform brings you the power of a Virtual Power Plant (VPP) and an award-winning Smart Home Energy Management system designed to connect your Residential and SME assets. With its active VPP deployments, tiko is one of the biggest real-time Smart Grids in the world.

What is Tiko energy smart grid? This field is for validation purposes and should be left unchanged. (C) 2021 tiko Energy Solutions AG. All rights reserved. The tiko Energy Smart Grid brings the power of a Virtual Power Plant and a Smart Home Energy Management system designed to connect Residential and SME assets.

Who owns Tiko? Swisscom and Repower, current tiko shareholders, retain their stake in the company's capital. Focused on the control of domestic energy consumption, this young company offers solutions for managing a wide range of electrical equipment in private homes. The aggregation of all connected homes enables the creation of virtual energy plants.

Why should you choose Tiko? This brings multiple advantages, for the owner of the asset an award-winning Smart Home Energy Management system, the possibility to connect several assets into communities and microgrids and latest the integration into a Virtual Power Plant (VPP). With its active VPP deployments, tiko is one of the biggest real-time Smart Grids in the world.

What is Tiko & how does it work? The aggregation of all connected homes enables the creation of virtual energy plants. tiko, a Swiss startup established in 2012, has developed a unique technology for exploiting the full potential of electrical equipment (water heaters, heat pumps, solar panels, batteries, electrical outlets etc.) that may be present in most individual homes.

What is Tiko's virtual power plant? Introducing renewable energy sources into our energy supply can bring fluctuations with them, but tiko's Virtual Power Plant is designed to stabilize the grid and reduce these fluctuations. tiko's hardware makes old generation devices internet-ready through retrofit which eliminates the carbon cost of recycling them and producing new devices.
