Why did Timor ??? Leste invest in solar photovoltaics? According to Silva, the government???s purpose was to invest in Solar Photovoltaics (PV) because it can help Timor ??? Lestesaves the cost of fuelwhich will be filled with generators in Hera and Betanu. ???Every year the Government pays \$126 million for the fuel which will be filled in the generator,??? he said.

Does Timor-Leste have a demand for solar? 3 MDF survey on understanding demand for solar in Dili, Timor-Leste. Timor-Leste???s rooftop PV solar industry is new and undeveloped. Limited availability of maintenance and spare parts inhibits some businesses from switching to solar.

Is Timor-Leste a good country for solar energy? Timor-Leste has a high-quality solar resource. The global horizontal irradiance in Dili is higher than on the east coast of Australia, where the solar market is mature and installation costs are higher. The cost of electricity in Timor-Leste for commercial and industrial consumers is high compared to ASEAN countries.

Is there a market for roof-top solar energy systems in Timor-Leste? Australia's Market Development Facility (MDF) and ITP Renewables conducted an assessment of the potential market for roof-top solar energy systems in Timor-Leste.

How long does a solar system last in Timor-Leste? High electricity costs and readily available solar radiation mean that the average payback period for a rooftop photovoltaic (PV) solar energy system in Timor-Leste is only 1.5 to 3 yearsinstead of the global average of 6-10 years. Transitioning to solar can also help the country meet environmental commitments.
