

TOGO GOAL ZERO NOMAD 5

How big is a goal zero Nomad 5? QiSa 38800mAh Qi Wi The Goal Zero Nomad 5 is a lightweight 5-watt mono-crystalline solar panel that weighs 12.35 ounces. It measures 9.5 inches long, seven inches wide, and 0.8 inches thick, with a small kickstand to set it at an angle. It has a single USB-A port providing one amp of electrical current to power your device.

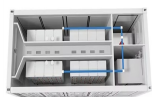

What is a nomad 5? Rugged and durable, built to last as long as your adventures do. A lightweight solution for on-the-go power from the sun, the Nomad 5 features 5-watts of monocrystalline in a rugged enclosure with an easy-to-use kickstand and USB output. 5 Watt panel gives you the solar collecting capability needed to charge your phone anywhere the sun shines.

Is the Goal Zero Nomad 5 a good solar charger? If you're prioritizing portability over all else in a portable solar charger, the Goal Zero Nomad 5 is for you. This panel is small enough to carry in your pack and light enough that you'll forget it's in your backpack at all. It's very thin yet durable enough to stand up to the abuses of the trail.

Is the Nomad 5 a good solar panel? Compared to other 5-watt solar panels, the Nomad 5 is incredibly efficient in direct solar charging. It produces enough power to keep your devices topped off, and while 5 watts of capacity isn't very large, it does a good enough job considering its small size. It's considerably more powerful than all the lower-watt panels we tested.

How much charge does a nomad 5 have? On a hot day in Colorado, 5,000 feet above sea level, under a white sheet, the Nomad 5 generated 65 mAh of charge in its 10,000 mAh test battery in one hour. This wasn't as much charge as during the direct solar charging test, but it's more of a charge than any other smaller panel we tested and over half as much as some 25-watt panels.

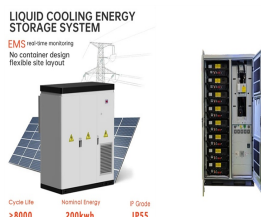

TOGO GOAL ZERO NOMAD 5

How big is a nomad 5 solar charger? It measures 9.5 inches long, seven inches wide, and 0.8 inches thick, with a small kickstand to set it at an angle. It has a single USB-A port providing one amp of electrical current to power your device. The Nomad 5 is one of the most portable solar chargers we tested that actually works well as a solar panel.
