Why is BP launching a green energy project in Trinidad & Tobago? The Trinidadian government initiated a call for green energy projects as part of its Paris Agreement commitment to reducing greenhouse gas emissions from power generation by 15% by 2030. BP Trinidad and Tobago president David Campbell commented on the project's significance in advancing the country's renewables industry.

What is the energy policy of Trinidad and Tobago? The Government of Trinidad and Tobago is currently developing a national energy policy green paper that recognises renewable energy (RE) combined with energy efficiency (EE) and utilisation of compressed natural gas in the transportation sector, inter-alia, as important strategies for the promotion of sustainable development of the nation.

Should Trinidad & Tobago invest in wind and solar energy? Tapping into Trinidad & Tobago's vast wind and solar resources for domestic electricity consumption would allow it to export more natural gas and use the extra revenue to finance its broader, long-term energy transition plans. Why do financial institutions have a role to play in energy transition?

Who is building the largest solar project in Trinidad and Tobago? Today, the Government of Trinidad and Tobago has officially given the green light to project partners, bp, Shell and Lightsource bp to begin construction of the largest solar project in the Caribbean.

Who oversees Trinidad's green energy projects? Construction will be overseen by Lightsource BP. The Trinidadian government initiated a call for green energy projects as part of its Paris Agreement commitment to reducing greenhouse gas emissions from power generation by 15% by 2030.
